

# futurepreneurs academy

## START-UP YOUR FUTURE

Experiential online entrepreneurship program for Year 7 and 8 students, with facilitation and coaching from your educators, designed to build essential skills for future career and life.

### Epic Entrepreneur Adventure

Your students will be inspired by the exciting world of entrepreneurs and work in teams on the first stages of building a start-up business:

Students work through 10 levels following a simulated start-up process. Gamified knowledge building and challenges guide them to come up with a business idea and produce a detailed prototype of a physical product, service or app that solves a real-world problem they've identified in their community or the world.

Along the way, they'll collaborate with their classmates, collect feedback on ideas and pitch their prototype for input to take them further in their start-up journey.

<b>Level 1</b>	Entrepreneur Life
<b>Level 2</b>	Start-Up Bootcamp
<b>Level 3</b>	Find Your Problem to Solve
<b>Level 4</b>	Come Up with Your Start-Up Idea
<b>Level 5</b>	Profile Your Target Customer
<b>Level 6</b>	Design Your Awesome Product
<b>Level 7</b>	Create Your Product Prototype
<b>Level 8</b>	Get Feedback on Your Prototype
<b>Level 9</b>	Make Your Start-Up Stand-Out
<b>Level 10</b>	Showcase Your Start-Up

### How will the program work in my school?

Futurepreneurs Academy is designed to be student-led, ideally with a minimum of 1-hour per week face-to-face facilitation by educators.

The program is a flexible project-based learning resource for cross-curricular implementation, or to augment a specific subject area.

No entrepreneur or business experience is required - we provide comprehensive teaching and learning resources to support easy implementation and student engagement.

The teaching and learning resources are hosted securely on the e-Learning platform OpenLearning.

Engaged student learning	Streamlined teaching resources	Cross-curricular, project-based	Rigorous pedagogy and learning outcomes

### What's included in the program package?

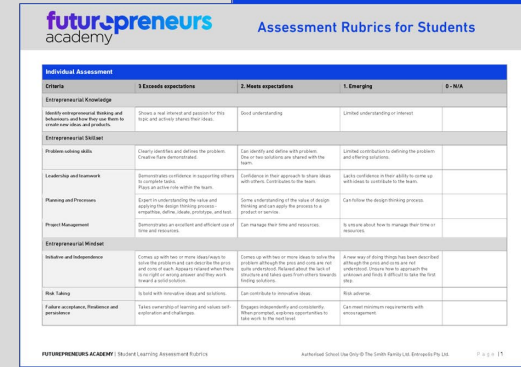

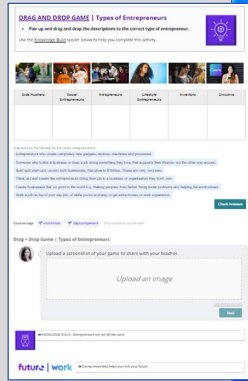

★	10x Levels. Multiple individual learning modules and challenges
★	Minimum 1x 60-minute lesson per week for up to 12-weeks
★	Educator online account - access to student quests, lesson plans and other facilitation / coaching resources
★	Student online account - access to student start-up quests, concept briefings and challenge activities
★	Gamified knowledge building and engaging team challenges
★	Aligned to ANCV9.0 - Economics and Business, Design Technologies and General Capabilities
★	Online set-up, onboarding and dedicated implementation support from Entropolis' education specialists
★	Comprehensive program implementation handbook
★	Culminates in showcase event - market day, pitch, expo
★	Assessment Rubrics and Certificate of Achievement

# What does the program look like for students and educators?

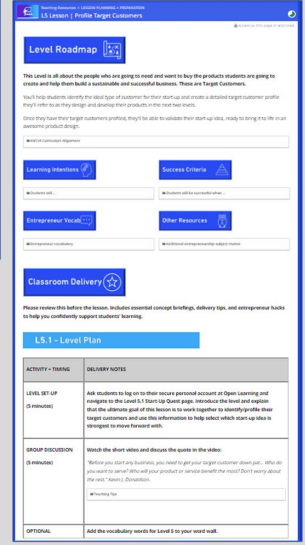

## Student Missions

Gamified learning activities and challenges for building and applying entrepreneurial knowledge and skills.

## Lesson Plans and Delivery Matrix

Streamlined background information on entrepreneurship concepts and teaching notes to support easy preparation and confident delivery.

## Engaging, Project-Based Learning

Futurepreneurs Academy has been developed through consultation and collaboration between entrepreneurs, educators, curriculum advisors and other ecosystem partners.

The program is designed to be a flexible, cross curricula resource delivered in the classroom, with integrated online modules incorporating the following Learning Principles:

	<p><b>Entrepreneur Magic</b></p> <p>Ignite young people's imagination and empower them to take risks and confidently explore challenges and opportunities in the world around them.</p>
	<p><b>Rigorous Pedagogy</b></p> <p>Align with and augment formal curriculum to ensure high quality cross-curricular learning outcomes while encouraging students to question their assumptions and think deeply.</p>
	<p><b>Real-World Learning</b></p> <p>Contextual, engaging and relevant learning experiences, that follow real-world scenarios and processes, with clear practical applications and outcomes.</p>
	<p><b>Exciting Pathways</b></p> <p>Expose young people to a road less travelled and open their mind to new opportunities for their future they may never have considered.</p>
	<p><b>Conscious Inclusivity</b></p> <p>Make entrepreneurship accessible and engaging to all young people regardless of who they are, where they come from and their ambitions for the future.</p>

## Why Entrepreneurship?

Early exposure to entrepreneurship benefits all students, regardless of background or academic achievement. It helps expand the possibilities for their futures by challenging them to think outside the box and use their strengths in new ways, while accommodating diverse learning styles and capabilities.

Training to think, act and create like entrepreneurs is a powerful way to build skills students can apply to fix problems in their community and world, while helping them be more adaptable, employable and productive in the future.

## Build Entrepreneur Superpowers to Rock the Future

Futurepreneurs Academy will spark students' entrepreneurial spirit and help them start building important skills and general capabilities:

	Innovation Capacity
	Creative Problem-Solving
	Critical Thinking and Judgement
	Commercial and Enterprise Skills
	Financial Literacy
	Effective Communication
	Digital Competency
	Leadership and Teamwork
	Ambition, Confidence and Resilience
